

Dear Bjarne,

I am writing to thank you and commend the entire SteelXperts project team for outstanding performance on the Comet/Meliora Bio project.

Kim Abildgaard, Project Manager did an excellent job of leading his workers and subcontractors through a challenging project, efficiently, with issues resolved in an effective and timely manner. Their dedication, work professionalism, and ability to adhere to a challenging schedule was outstanding.

We wish SteelXperts success in their future business and would enjoy working with them again on any future projects. We would strongly recommend them to anyone looking for a solid mechanical contractor.

Dennis D'Agostino VP - Technology Implementation
